

As we write this letter, we cannot know what you are feeling; what we do know is that you are making a very important decision about your child's future. Whether you choose to parent or to make an adoption plan, we want you to know that you are a courageous and caring person and we respect you. Please let us introduce ourselves to you.

We are Mike and Heather. We will start by sharing a bit about our life. We met in 2005 while working together in a small, summer tourism town called Medora. We then discovered that we attended the same college and started dating. We fell in love and got married in 2007. Our jobs: Mike is a commercial truck driver with local hauls only. He works your average M-F, 8-5 and is home every night. We are truly thankful for this as we cherish our family time together. Mike enjoys anything outdoors, hunting, fishing, sports, and hanging out with friends. He's always up for a good movie, a game, or playing with our two dogs.

Heather works from home as a licensed childcare provider. She cares for 5-6 children ages 5 and under, M-F. Her hobbies include anything crafty, sewing, reading, most things outdoors, writing, music, movies, hanging out with friends, and shopping. Overall, we tend to get along very well and find that the time passes rather pleasantly.

We have two energetic, loving, and very kid-friendly dogs. Ruger is a five year old Chocolate Lab/ Pointer cross. Roxxie is a three year old miniature dachshund. They both adore the daycare kids and each other too! They are very energetic!

As a couple, we have always wanted to have children, but for reasons beyond our control, cannot have them on our own. We both have been raised as Christians and our faith holds a key role in our lives. We know that God has blessed us beyond measure to have found each other and to be surrounded by loving and supporting families. We believe in our hearts that he has chosen the path of adoption for us and we welcome that with open arms. We feel that being given the opportunity to raise a child through love, faith, and the gift of adoption is a huge honor and blessing that we are grateful to accept.

All in all we are a fun loving couple just waiting for the chance to become a family! We hope for our future child or children to know that they are loved and cared for, safe and secure, and that they can always count on us. We want to raise our little ones in faith and that forever-kind-of-love.

We are grateful for the option of open adoption and the support and experience of Catholic Social Services of Montana. We hope that seeing this small look into our lives has sparked your interests. We wish you peace in whichever path you choose!

Faithfully Yours, Mike and Heather
